View from Anywhere

Want some privacy when you're at home?

No problem! The S3E has a physical privacy mode. With just one tap on the Uniarch app, the lens will hide back into the housing. When you need it to work again, simply deactivate the privacy mode with one click.
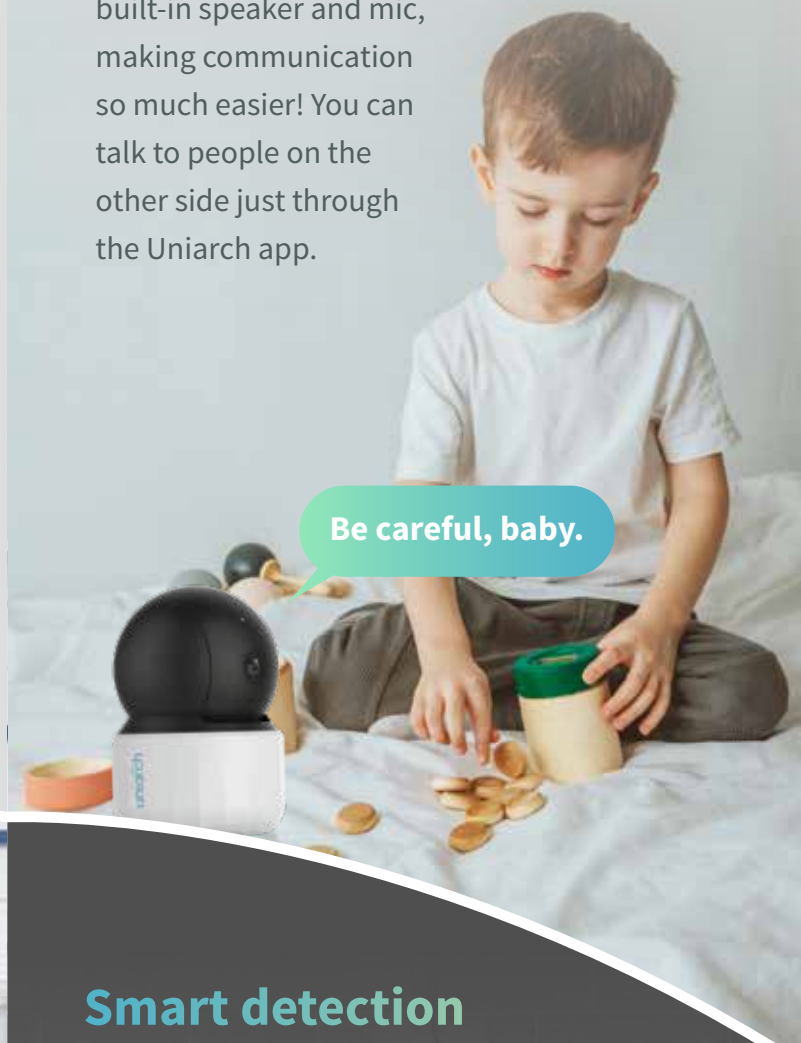

Privacy Mode `ON`

Talk to your loved ones at anytime.

S3E is equipped with a built-in speaker and mic, making communication so much easier! You can talk to people on the other side just through the Uniarch app.

Be careful, baby.

Easy to install

Upgrade to a large mounting plate. If you want to mount the camera in your store, the installation is much easier and faster.

Smart detection and tracking

S3E automatically detects and tracks people in real-time, ensuring your store's security with reliable precision. Even at night, S3E captures everything clearly with up to 10m of infrared light.
