Action touch for effortless control

With a physical button, you can easily call your loved ones with a single click and activate privacy mode with just two clicks.

Talk like face to face

Built-in mic and speaker enable you to communicate with people on the other side with the best quality sound.

Powerful smart detection

S3E Pro, powered by Unimind, smart detects humans, vehicles, pets, baby cries, and High-Decibel.

See more details at night

Concerned about issues at your store during the night? Even in the dark, S3E Pro's smart dual light mode activates warm light when detecting people and vehicles, capturing clear color details.

Rich alert keep you updated

Even when you're not at your store, you'll receive an instant notification on your phone if any detection occurs.

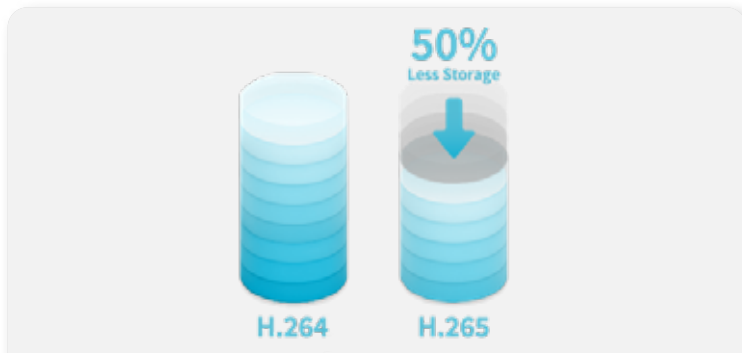

Wi-Fi 6 makes connection further

With Wi-Fi 6, S3E Pro has stronger network connection that can be reached further away.

Multiple storage options

S3E Pro supports up to 512G SD Card, NVR, and cloud storage services. Safety is guaranteed without a doubt.

H265

The latest video compression technology makes you viewing higher quality videos with lesser space taken.
